

# Tablets in Schools • Internet Safety

Organised by the Department of eLearning at Girls Secondary School, Victoria

## Tablets in Schools

Tablets are coming to our schools. Now what? The talk will illustrate how tablets are a very good educational tool but they need to be used with care. Parents have an important role to play here and participants in the talk will be made aware of the opportunities and challenges of tablet use by children at home and at school.

**Speaker** Mr Martin Debattista, Project Leader - Tablets  
**Date** Wednesday, 7th May 2014  
**Time** 10 am

## Internet Safety

Online technology is developing very fast and as parents and carers we have to keep abreast of new social networks, chat rooms and also new trends. During this session we will focus on how we may help our children, be more aware of current risks they may face, and enable them to become smart digital citizens and encourage them to be wary of what they post online.

**Speaker** Mr Omar Seguna, eLearning Support Teacher  
**Date** Thursday, 8th May 2014  
**Time** 10 am

To book your place contact Mr Keith Aquilina by email: [embed@ilearn.edu.mt](mailto:embed@ilearn.edu.mt) or tel: **25982805** or **25982142** by not later than 25th April.
